- 2.1 Carrier is a resale common carrier providing telecommunications service to subscribers for direct voice communication with stations of any domestic telephone system within the state of Kentucky. Service is available all hours, all days. Billing for calls begins at the time Carrier's frequency monitoring device detects that the called party has answered and ends when the device detects that either the called party or the calling party hangs up. The frequency monitoring devices have demonstrated an accuracy of 95% to 99%. However, as a back-up, carrier identifies calls of such duration that it has errored and that the call has actually been answered. In such cases, billing begins only for the point at which the frequency monitoring device is deemed to have errored. The carrier will provide an appropriate credit to a customer billed for a call of short duration when customer identifies that the call was not complete.

by: Stephen O. Bell
SECRETARY OF THE COMMISSION

2.4.3 Billing will be payable upon receipt of bill. A late payment penalty of 1.5 % will be assessed on customer's bill if the customer fails to pay the bill for services by the due date shown on a bill. The late penalty charge is reflected on the customer's bill showing a previous balance. The penalty is assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for services rendered. Additional penalty charges shall not be assessed on unpaid charges.

2.4.4 The subscriber has the right to negotiate a partial payment when service is threatened by disconnection for non-payment.

2.4.5 The customer is responsible for payment of all charges for services furnished by The Company. Non-recurring charges are payable when the service for which they are specified have been performed. If an entity other than The Company (e.g., another carrier or a supplier) imposes charges on The Company, in addition to its own internal costs, in connection with a service for which a Company non-recurring charge is specified, those charges will be passed on to the customer. Recurring charges which are fixed in amount and not dependent on usage are billed in advance. Usage charges are stated as a function of, and vary with, use (e.g., per connection time). Usage charges are billed in arrears.

2.4.6 The Company may deal with customers whose accounts show very small balances by withholding the issuance of an invoice until the amount due from the customer reaches a level which, in The Company's sole discretion, is deemed large enough to justify initiating the billing and collection process; or The Company may invoice low usage customer every other month unless a customer invoiced in such a manner requests monthly billing.
